# V220

The V220 is back by popular demand. Originally introduced in 1984, the V220 was played by chart topping artists of the decade such as Craig Chaquico (Starship) and Marty Friedman. The V220 was among the top selling guitars Carvin made in the 1980's. Available with the standard M-bridge with strings fed through the body or with a Floyd Rose.

## V220 FEATURES:

(See page 26 for neck through body features)
